

CREATED & PRESENTED BY **DON SHOMETTE**

ASSESS & PROGRESS

PRACTICAL APPLICATIONS!

No skill is more important than being able to quickly and accurately determine if a student who has made a threat truly poses a threat to himself and others.

However...this skill is perishable and must be practiced!

Participants who attend this 1-day, fast paced training will practice and hone their skills by participating in two comprehensive student safety assessment practical applications (morning and afternoon).

There is no requirement to...

have first attended a previous Assess & Progress course or any other human threat assessment training.

The structure of the training, plus the course materials, will help guide as well as teach participants the proper order of completing a student safety assessment.

Join us and practice your skills!

UPCOMING DATES:

12 March & 15 March 2024*

*The same course is being presented on two different days so schools can send half of their key leaders on one day and the other half on the following day. This way, your school can participate in the training and still maintain coverage of your key leaders!

FREE!

Funding is generously provided by New York State and Erie County

WHO NEEDS TO ATTEND:
